Incident Command System EOC Interface – G-191 – 28-22-0191

Full Description: This course uses NIMS principles to develop an effective interface between Incident Command and EOC. The goal of this course is to enable the students to develop an effective interface between the Incident Command/Unified Command (IC/UC) and the Emergency Operations Center (EOC) by applying National Incident Management system principles. This course is designed to examine the role and function of the IC/UC and the EOC in response and support of an incident. It focuses on the coordination between the Incident Command System (ICS) and the EOC. The course reviews ICS and EOC responsibilities and functions through exercises and group discussions.
