

Hazardous Materials Technician Module 2
Interpreting the Hazardous Environment
With Bruce Oliphant

This second in a series of Hazardous Materials Technician modules provides emergency response personnel with skills to interpret and better understand the hazardous environments they will be working in. This course covers portions of OSHA 1910.120 and NFPA 472. Topics include the use of chemistry for the emergency responder; monitoring, detection and identification instrumentation; proper sampling protocols and identification of special response incidents such as Clandestine Laboratories and Weapons of Mass Destruction/Terrorism incidents. Designed for: All emergency response personnel

Course length: 12 hours

Prerequisites: Hazardous Materials Technician Module One: Primary Skills for the Hazardous Materials Responder.

Course number: 01-09-0099

Min 10/Max 24
