

NYSAFC 2022 Seminar Series “The Five Points of Command”

With Chief/Commissioner Michael Lombardo,
Buffalo Fire Department

The fireground is a dynamic, ever-changing environment. It can be a daunting challenge for firefighters, company officers, and chief officers to control an emergency situation. A cohesive and smart incident action plan is critical and key to successfully controlling the chaos that we so often respond to. Personnel must understand the components of the incident action plan and how this plan effects all facets of the operation and all who are operating to attain success. Remember, this plan isn't just for and about incident commanders, but rather a framework for all on the fireground to operate with. Whether you are a new firefighter or the chief of department, having, implementing, and understanding the incident action plan will provide the clarity and coordination for a safe and successful operation.

Mike Lombardo is a 43-year veteran of the fire service and was the commissioner/ chief of department of the Buffalo Fire Department from 2006-2010. He is a New York state fire instructor and was a member of the development team for the New York State Firefighter Survival and Rapid Intervention programs. Lombardo has also served as a Hands-On Training instructor for NYSAFC. He is a two-time *Firehouse* magazine Heroism Award recipient and is the FDIC 1999 Tom Brennan Training Achievement Award recipient. Lombardo is a member of the board of directors of the Fire Department Training Network, where he developed the Fire Command program. He is currently an active member of the East Amherst Fire Department and is a past assistant chief of the Christiana (DE) Fire Department.
