CoRE OBJECTIVES

- **Learn** - Do we have a pipeline emergency? Where is the product release? Should emergency responders shut down the pipeline?
- **Acquaint** - Whom do we notify? Work through a simulated product release with your local pipeline operator.
- **Identify** - Is there an immediate threat to life or property?
- **Plan** - Do we need to start an evacuation or other public protective action? Will other resources (local, state, federal, private industry) be required?
