| 14 | TU | 4/24/18 |
| 15 | TH | 4/26/18 |
| 16 | SAT | 4/28/18 |

Course Description: This course prepares new BEFO graduates to operate as Interior Structural firefighters or in IDLH areas of the fire scene. Students participate in learning events covering firefighter personal protective equipment (PPE), self-contained breathing apparatus donning, doffing and use, SCBA air management and SCBA emergencies, basic firefighter survival techniques, modern fire control methods, building fire search and victim removal techniques, firefighter survival skills, tactical ventilation techniques and basic power saw operation, forcible entry techniques, hose line advancement, vehicle and wildland firefighting theory, vehicle firefighting techniques, coordinated structure fire interior attack and transitional fire attack, and coordinated initial company operations.

Course Textbook: IFSTA Essentials of Firefighting & FD Operations, 6th Edition. Student's success relies on the student's completion of the assigned readings. (Electronic version of the book is available thru r1.ifsta.org)

Course Homework: Participants must complete each take home quiz as assigned.

Student Evaluation: The student must successfully demonstrate all associated skills and score at least 70% on the SCBA/ Interior Firefighting Operations final written exam to obtain a NYS Firefighter-1 certificate.
